HELLO!

I'm Sarang Sheth, a Graduate in Product (Industrial) Design at MIT Institute of Design, Pune.
I'm highly passionate about gadgets/electronic products, music, and books. I believe that form, along with function, also follows emotion. Apart from design, I am also a keen musician, having learnt classical vocals for 12 years.

I love interacting with people, products, and occasionally animals as well. I'm inseparable from my laptop, and my acoustic guitar.

EDUCATION

2009-2014 : MIT Institute of Design, Pune
